# Join the Worldwide Celebration of Music

## *June 21st, 2023*

Make Music is a free celebration of music around the world on June 21st. Launched in 1982 in France as the Fete de la Musique, it is now held on the same day in more than 1200 cities in 120 countries.

Completely different from a typical music festival, Make Music is open to anyone who wants to take part. Every kind of musician, young, old, amateur and professional, of every musical persuasion – pours onto streets, parks, plazas, and porches to share their music with friends, neighbors, and strangers.

All of it is free and open to the public.

because it can change people."

# A Message from our Founder

## Making Music in LA since 2012!

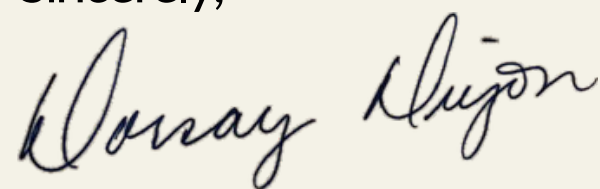

Dear Respected Los Angeles Leadership, Arts Organizations, and LAUSD;

Los Angeles is known worldwide as the Entertainment Capital of the World. Now, more than ever, we must come together in harmony to shine a light on healing through the power of music and art. The pandemic's reach of global proportions brings us together in a way we never anticipated.

Monday, June 21st is Make Music Day and the world will be celebrating by making music outdoors and at home. We have the unique ability to reach out to our neighbors next door and across the globe through the universal languages of music and art, as an opportunity to rise together as members of the creative economy, individuals, organizations, and municipalities, to make our collaborative voices heard.

We invite you to join the worldwide celebration. Help us share this initiative to your constituents, colleagues and students through your newsletter, event calendar, email lists, and social media. Let's show the world that we are communities of hope, togetherness, healing and love.

Sincerely,

Dorsay Dujon
